

IXcellerate data centers

10 Years in Russia

10 FACTS ABOUT IXCELLERATE

AMONG TOP-3 PLAYERS IN RUSSIA

IXcellerate is one of the largest carrier-neutral commercial datacenter operators in Russia. The company operates two data centers with a total power capacity of 26 MW for 3400+ racks and plans to build additional 1700 rack spaces by the end of 2021.

BIGGEST INVESTMENT IN COMPANY'S HISTORY

IXcellerate plans to invest **\$500** million to expand its capacity in Moscow over the next few years.

UNLIMITED SCALABILITY & GROWTH

IXcellerate's long-term development strategy is based on the ability to provide scalability for each client for ten years ahead.

In 2021, the company has started building one of the largest data center campuses in Europe, which, once fully developed, will provide colocation capacity for 20 000 racks with 200MW total power. The new campus, IXcellerate Moscow South, will unite four Tier III data centers and will be connected to the northern campus, which will also develop two new data centers by 2023, raising its overall rack capacity to 5900.

CARRIER & CLOUD NEUTRAL

We are a pure colocation provider, with no affinity to any **50+ telecom** and **30+ cloud** providers present onsite.

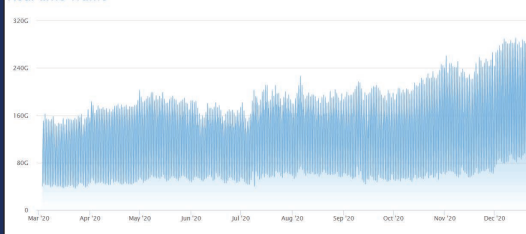

PREMIUM CUSTOMER SERVICE

Our service availability is **99.999%** with 24/7/365 bilingual customer support and 15 minutes of guaranteed ticket response time.

INTERNET EXCHANGE

Eurasia Peering IX, IXcellerate's in-house Internet exchange platform, has over 150 peers with peak traffic reaching 300 Gbit.

Real-time Traffic

INTERNATIONAL ECOSYSTEM OF CUSTOMERS AND PARTNERS

IXcellerate is a home for hypercloud in Russia. Its expanding customer base includes over 150 international and Russian companies, among them are Refinitiv, Tencent Cloud, Huawei, Nestlé, Orange Business Services, Rackspace, Agricultural Bank of China.

SUSTAINABLE INFRASTRUCTURE

IXcellerate data centers are designed to accommodate IT infrastructure for ultra high-power density computing in accordance with the Tier III and Level 3 reliability levels. We provide 100% uptime since commissioning in 2013 and integrate environment-friendly solutions to deliver one of the industry-leading PUEs and Total Cost of Ownership.

TEAM

IXcellerate top executives bring their many years' experience of managing and maintaining data centers in Europe, South Africa and USA.

Founded by Guy Willner and Cliff Gauntlett in 2011, IXcellerate grew to become one of the most successful commercial data center operators in Russia.

FINANCIAL TRANSPARENCY

Strategic investors are IFC, Sumitomo Corporation and Goldman Sachs.
