

IXcellerate data centers

SINCE 2013 ON THE MARKET
OVER 100 MW CONNECTED
GUARANTEED SPACE FOR DIGITAL
GROWTH FOR
THE NEXT 10 YEARS

IXcellerate is a leading commercial data center operator, one of the three largest market players in Russia. We offer customized colocation solutions for server and telecommunication infrastructure in two geographically distributed campuses.

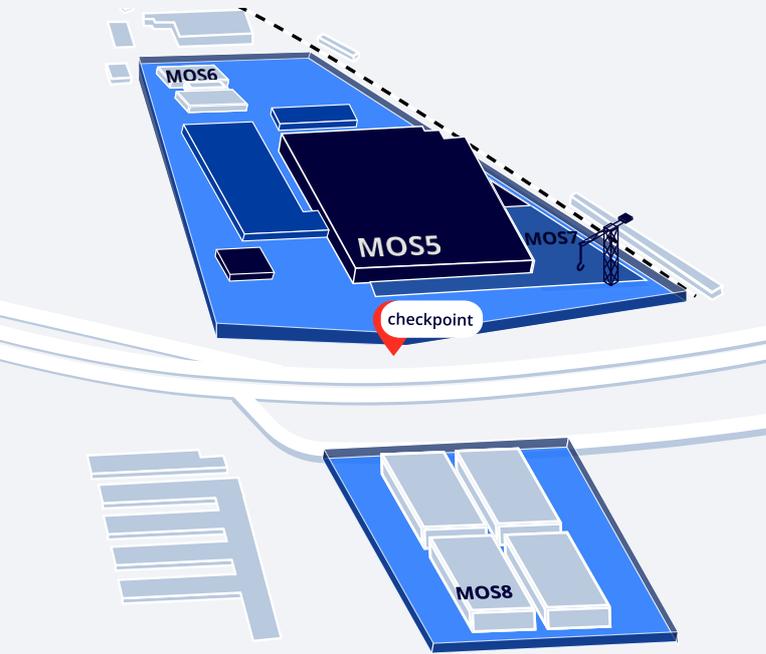

North Campus IXcellerate

Located in the Northern Moscow in the Altufievo district.

Four data centers are built on the land plot of over 3 hectares. The power capacity of the campus at full load will amount to ~64 MW.

MOS 1	MOS 2	MOS 3	MOS 4
13,7 MW	13 MW	30 MW	7 MW
OPERATION	OPERATION	OPERATION	OPERATION

South Campus IXcellerate

Located in the Southern Moscow in the West Biryulevo district.

Four data centers will be built on the land plot of over 14 hectares.

The power capacity of the campus at full load will amount to ~300 MW.
